

REMARKS

Although the current drawings are not subject to an objection, in reviewing the case prior to payment of the Issue Fee, the undersigned determined that replacement drawings would improve the readability of the case. The replacement pages submitted herein are much more legible than the original drawing pages, and the replacement pages do not include shading or other extraneous markings. No new matter has been included, and entry is requested so that the patent may issue with a cleaner set of drawing figures.

The Issue Fee will be paid under separate cover.

Respectfully submitted,

/David H. Judson/
